LOGO

Spacing and usage

For our logo to stand out, there should be sufficient clear space surrounding our logo on all sides - see clear space guide below for reference. Always keep other design elements out of this clear space around the logo. To ensure legibility, our logo should never be smaller than the examples below. We ask that you do not edit, skew or add effects to our logo.

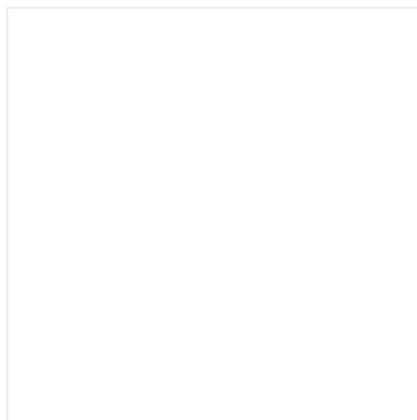

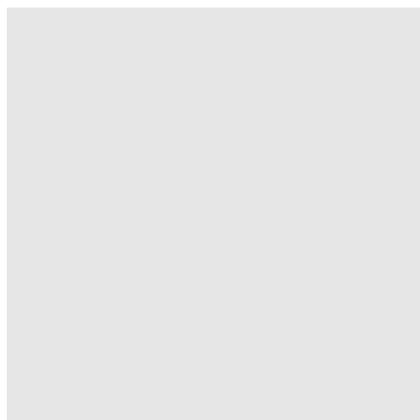

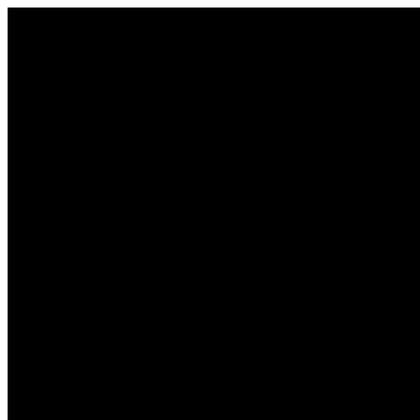

Our primary brand colours are black and white, and secondary colours are deep grape and grey.
